I've been...

Oct 2025 - Now: Everest Engineering

Software Engineer (contract) position, completing React & Typescript feature work for healthcare management software company Splose.

Apr 2024 - Jan 2025: Mira | Business Software

Frontend development, new feature development and code upkeep for a SaaS desktop, mobile and web app built in Quasar, Vue JS and Laravel.
(made redundant due to financial reasons)

Jun 2023 - Nov 2023: AdTorque Edge

Sole Vue JS developer tasked with creating and building a business-critical internal SPA in VueJS, Typescript & Tailwind from the ground up.
(made redundant due to changes in operational requirements)

Apr 2022 - Dec 2022: Honest Fox

Frontend Vue JS developer working on a range of projects including:

- Complete rebuild of the agency's website using Vue JS, Nuxt, Tailwind & Storyblok, from the ground up
- Various website development using Vue JS, React, Twig, SCSS
- Integrated multiple CMS offerings such as Craft CMS, Hubspot, Strapi

(made redundant due to changes in operational requirements)

Dec 2021 - Apr 2022: Bower House Digital

Technical producer, brought over from Clemenger to do:

- Salesforce EDM development for Target, Aesop
- A complete process overhaul of the EDM development process

Jul 2019 - Dec 2021: Clemenger BBDO

Worked as a part of a wider frontend development team, including:

- Developed Vue.js applications for BMW & Myer
- Developed static and dynamic HTML banners for a range of clients such as BMW, Belong, NAB, TAC
- Developed, targeted and deployed Salesforce EDMs for Myer

also...

Nov 2018 - Jul 2019: Freelance & Contract

The Royals:

- Created a fully dynamic suite of HTML banners using Google Web Designer for AustralianSuper, partnering with Google as a showcase example for the new DV360 dynamic banner rollout
